Search for Shooters' Hard Drive Concludes in California Lake

(ABC) An underwater search for a computer hard drive and anything else linked to the husband-and-wife shooters who killed 14 in the California attacks has concluded. FBI spokeswoman Laura Eimiller said specialized divers with the agency concluded their search on Saturday of a San Bernardino lake for abandoned evidence. However, she declined to say whether any items recovered are related to the probe. Investigators have said the killers tried to cover their tracks by destroying emails, cellphones and other items at their home in Redlands. They were tipped that the small lake in a park about 3 miles from where the shootings happened might hold the hard drive, according to a law enforcement official briefed on the investigation but not authorized to speak publicly about the case. The search began Thursday after authorities learned the shooters, Syed Rizwan Farook, 28, and Tashfeen Malik, 29, may have been in the area the day of the attack, said David Bowdich, chief of the FBI's Los Angeles office. Farook, a U.S. citizen, and his Pakistani-born wife, opened fire Dec. 2 at a holiday luncheon attended by many of Farook's co-workers in the San Bernardino health department. The couple died in a shootout with law enforcement hours later, leaving behind a 6-month-old daughter. Authorities say Farook and Malik, who came to the U.S. on a fiancée visa in July 2014 and married her husband the next month, were not known to law enforcement before the shootings. But since the attack they have determined the couple discussed martyrdom and jihad online as early as 2013. Farook's longtime friend and relative-through-marriage, Enrique Marquez, bought the assault rifles used in the shooting more than three years ago, about the time he converted to Islam, according to the law enforcement official. Farook asked Marquez to buy the rifles because he was worried he wouldn't pass the background check himself. Marquez, who checked himself into a mental hospital after the attack, told investigators that he and Farook were plotting an attack in 2012.

International News – Significant Events

At least 87 killed in latest Burundi violence

(CNN) At least 87 people were killed in clashes with the Burundi military in the capital of Bujumbura that began a day earlier, an army representative said Saturday. Four police officers and four soldiers were among the dead, while nine soldiers and 11 policemen were wounded, spokesman Gaspard Baratuza said. At least 45 people were arrested following the clashes. "The United States is deeply alarmed by the attacks that occurred overnight and continue in Bujumbura. We condemn this violence in the strongest possible terms, and we call on all sides to refrain immediately from violence," the U.S. State Department said in a statement. France also condemned the attacks and called on all parties in Burundi to choose dialogue and not violence to find an exit to the crisis, the French Foreign Ministry said. Burundi has seen months of chaos as violence erupted after Burundi's President Pierre Nkurunziza announced a controversial run for a third term. The subsequent unrest has left scores dead and caused more than a 170,000 people to flee the country. In May, Nkurunziza held onto his office after a failed coup attempt by an army general while the President was in Tanzania.

SITUATION SUMMARY

Storm Impacting the North Coast

- On 12/13/15 at 0453 hours, the California State Warning Center (CSWC) was notified that Del Norte County EOC was activated to Level 2 as a result of the current storm conditions.
- Cal OES Coastal Region ESC Jan Marnell will deploy to the EOC when driving conditions are safer.
- A Flood Warning is in effect until further notice for the Smith River near Dr. Fine Bridge in Del Norte County. Minor flooding is forecast with the river expected to rise above the flood stage of 33 feet this morning and crest near 34 feet late this morning. Rainfall amounts of 3 to 5 inches have already fallen and an additional 1 to 3 inches is likely.
- A Flash Flood Watch and Flood Watch remain in effect through this evening for the potential flooding of small streams, rivers, and wildfire burn scar areas in western Siskiyou County.
- A Flood Watch remains in effect through this evening for a portions of Del Norte, Humboldt, and Trinity Counties. Minor flooding from area small streams along with localized urban flooding is likely.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- Heavy rainfall associated with a frontal system and developing low pressure system will bring continued rainfall to the North Coast.
- Another Pacific storm will bring some moderate to heavy precipitation and strong wind to Interior Northern California through tonight. Rain is expected to be 0.25 to 1" in the Valley and 1 to 2" in the Foothills.
- Heavier rains beginning in the Northern San Francisco Bay area this morning spreading south through the entire SF Bay area by midday and through the Monterey Bay area by afternoon. Widespread rainfall amounts of 1/4" to 3/4" in the valleys with 1-2" in the higher terrain are expected. Strong and gusty southwest winds will develop ahead of the front by sunrise this morning. Winds will then switch to the northwest in the afternoon and remain strong and gusty through this evening. Strongest winds are expected near the coast and in the hills of the San Francisco Bay Area.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

SITUATION SUMMARY

SPILL: 15-7270, Trinidad, Humboldt County

On 12/12/15, CALFIRE advised the CSWC that a fuel tanker big rig involved in a collision, during the afternoon, overturned resulting in the release of 240 gallons of diesel fuel. The fuel released onto the roadway and into a creek that leads to Big Lagoon. The diesel was diked but with heavy rain containment was unknown. Incident location was Highway 101 north of Trinidad, Humboldt County.

Per CALFIRE on 12/12/15 at 1824 hours:

- The leaking tank has been stopped and the spill was not expected to enter Big Lagoon.
- A tanker truck representative, US Coast Guard, and hazmat clean up resources were en route.

Per CALFIRE on 12/12/15 at 1910 hours:

- The release was contained and it was determined that an estimated 200 gallons of diesel fuel had actually released. The remaining estimated 300 gallons was still within the overturned tanker truck.
- A second diesel truck was on scene pumping and transferring the diesel from within the overturned tanker truck. Once completed, the overturned tanker truck would be righted. EPA was on scene and the name of the impacted waterway was Tom Creek.
- CSWC conducted notifications per SOP.

SPILL: 15-7275, Holtville, Imperial County

On 12/12/15, City of El Centro Fire Department advised the CSWC that a helicopter aerial spraying company conducted a planned application of Debug Turbo Spray to an agricultural field during the evening hours which impacted approximately 20 field workers that occupied the field at the time of the helicopter's single pass application. Incident location was Highline Canal and Heart Road in Holtville, Imperial County.

- The field workers were loaded onto a bus and taken to the El Centro Regional Medical Center. While there, the workers were decontaminated. Two of the workers suffered symptoms of nausea and throat irritation.
- Personnel from the Imperial County Public Health, Imperial County Environmental Health, and the Agriculture Commission were on-scene at the medical center.
- The cause of the incident is under investigation.
- CSWC conducted notifications per SOP.

Per the Cal OES SDO on 12/12/15 at 2336 hours:

- The Imperial County OES Deputy Coordinator spoke with the County Fire Chief who indicated that all of the patients were decontaminated at the hospital and have been released.
- Imperial County Environmental Health is investigating the incident.
- There are no emergency management issues and no requests for assistance.

SITUATION SUMMARY

SPILL: 15-7175, Somis, Ventura County

- The California State Warning Center (CSWC) received a Hazardous Materials Spill Report advising of an approximately 500 barrel (Bbl.) release of crude oil on a damaged transmission line in Somis, Ventura County. The location is approximately ½ way between Camarillo and Moorpark.
- Eastbound SR-118 is closed and one-way traffic control is in effect; the freeway should reopen when clean-up is complete.
- Per the Cal OES Southern Duty Officer on 12/12/15 at 1824 hours:
 - The incident area has been divided into three Divisions for facilitation cleanup work.
 - The culvert located beneath Highway 118 where the oil traveled from the drainage south of the Highway to the northern drainage has been jetted. Crews are waiting for sign-off to complete work in this area.
 - Division 1:
 - Based on analysis of the soil sampling results, crews were allowed to backfill the excavation area where the pipeline was exposed for repair. A slurry was poured over the area covering the pipeline. Continued cleanup is being conducted to remove hot spots.
 - Division 2:
 - The retaining wall along the south side of the drainage has been shored in preparation for cleanup. Power washing was creating too much water, so an alternate solution is being developed.
 - Division 3:
 - Crews are jetting the culvert under the Price Road bridge to clean up the contamination in that area.
 - A mobile lab is deployed to the incident and staffed 24 hours a day to facilitate the sampling and analysis process.
 - A Cal Trans Geologist arrived at the incident to assist in reconstruction of the excavation area. The Geologist met with Representatives from the Calleguas Water District and Southern California Gas Company to address their concerns regarding their respective pipelines in the area.
 - A strategy is being developed for backfill operations.
 - The ICP has been relocated to the Quality Inn located at 984 West Ventura Boulevard, Camarillo.
 - There is no timeline currently available for completion of the cleanup.
 - Air monitoring is being conducted using a PID for a group of contaminants associated with oil product. Specific monitoring is being done for benzene. Workers in the area are wearing appropriate PPE.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Another potent storm system will bring more heavy rain and strong winds to the region today. Moderate to heavy rain continues through this morning.

Medford Weather:

Very heavy precipitation is moving through the area at this time as a deep moist plume (atmospheric river) associated with a strong cold front presses in from the Pacific. Rainfall rates in the last couple of hours have been impressive.

Reno Weather:

A fast moving storm will bring heavy snowfall near the Sierra and strong winds today, and rain changing to snow later today in lower elevations. Significant travel impacts and delays are expected for the Sierra through tonight, with slick roads also possible tonight in Western Nevada. A drying trend will follow with cold temperatures through midweek.

San Francisco Weather:

A strong cold front will move quickly from North to South across our region today producing widespread rainfall and locally strong and gusty winds. Rain will likely be heavy for a brief time as the front passes from mid-morning through early afternoon. Southerly winds will gust as high as 50 mph near the coast and in the hills of the San Francisco Bay area this morning then switch to the Northwest and remain locally strong and gusty through this evening. Cool and dry weather conditions are expected to return to most areas on Monday and persist through much of the work week. Rain chances return to the North Bay by Thursday, but not to the rest of the region until next weekend.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

A Pacific storm will move through today into tonight bringing precipitation and strong Southerly wind. Linger mountain showers possible Monday then dry through midweek. Another storm system could impact Interior Northern California late in the week into the weekend.

Hanford Weather:

Another cold storm system will move into the area today. This storm will bring mountain snows and rain to the San Joaquin valley and Kern County desert areas through Monday afternoon. Gusty winds will also be possible in the higher elevations with breezy conditions in the lower elevations. Below normal temperatures will remain through Wednesday followed by a slight warming trend into the weekend ahead of another approaching storm.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Cool and breezy conditions will prevail for most of today. A fast-moving cold front will bring rain to most of the area later this afternoon and evening along with low elevation mountain snow. Gusty winds can also be expected through Monday night. Most of next week will remain dry then another trough of low pressure may bring a chance of rain to the area later next weekend.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

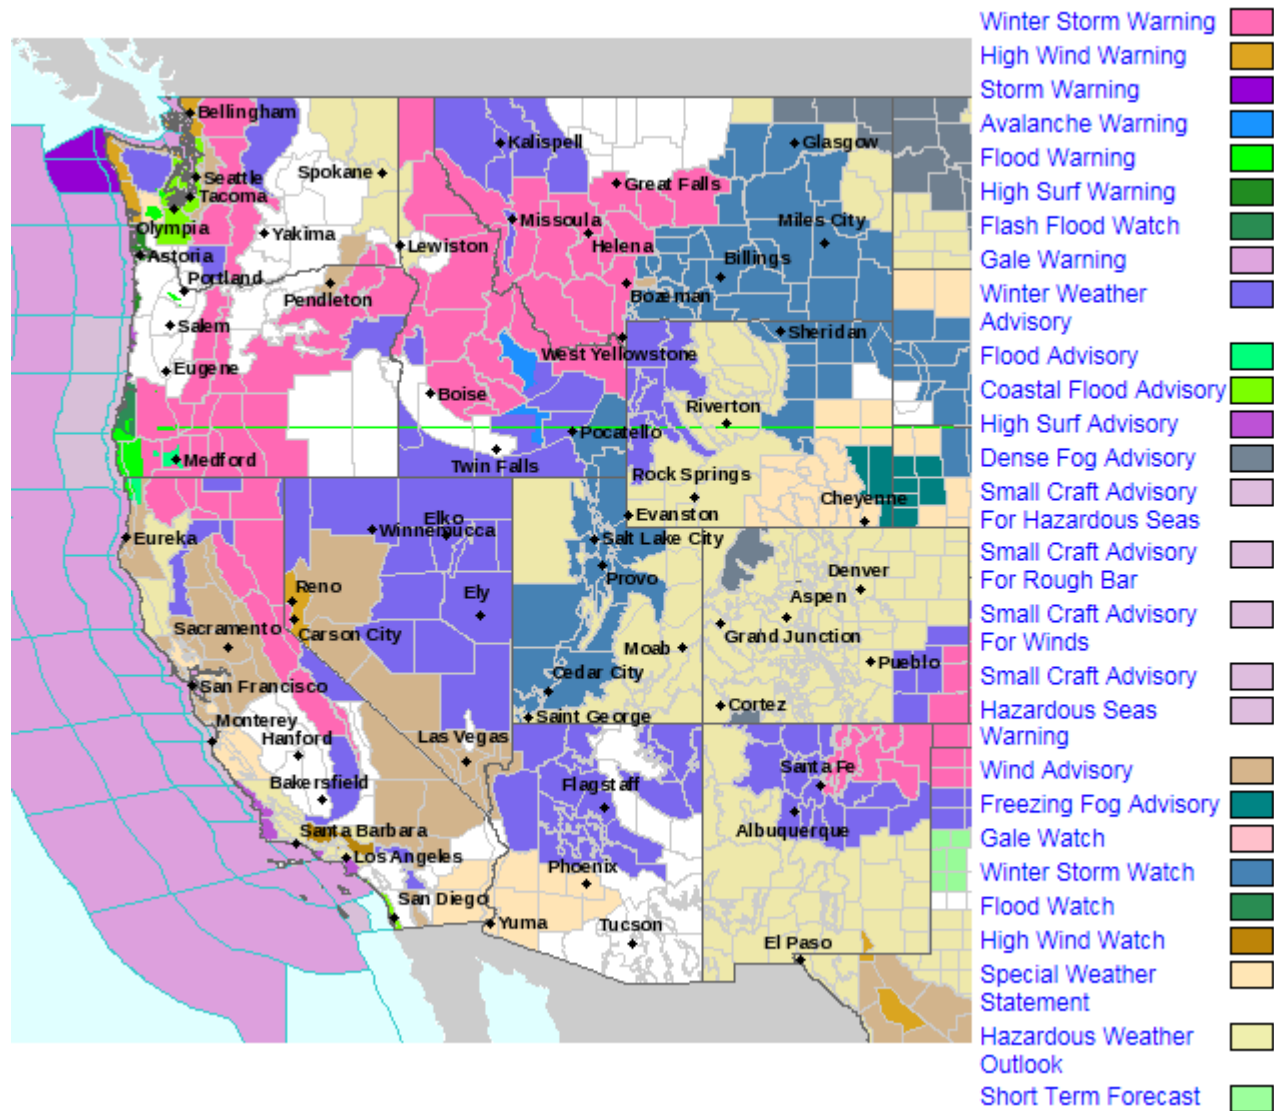

A weak high pressure ridge will move over the southwest this morning followed by a low pressure tonight. This will mean fair and seasonal weather for Southern California through today then gusty winds in the mountains and deserts and showers tonight. Several inches of snow are possible above 6000 feet in the mountains by Monday morning. Blustery and cool on Monday then fair and dry with cool nights and a slow warming trend for the remainder of the week.

Southeast California Weather:

The storm track still remains over the region dipping south from the Pacific Northwest. Today a weak high pressure system will provide sunny skies and cool temperatures ahead of another Pacific weather system forecast to move into the region late tonight and Monday.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 63 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 29 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
